Stealth Introduces Small Form Factor PC featuring 3 High-Speed Gigabit LAN Ports With Desktop Power That Fits In The Palm Of Your Hand

Toronto ~ July 2005 – [Stealth Computer Corporation](#) a leading ISO 9001 manufacturer of specialized computers and peripherals have continued their tradition of providing small form, powerful, PC based solutions to a growing marketplace. Stealth has introduced their latest model: [LPC-401XG3](#) Gigabit LAN Little PC, delivering lightning fast network computing in a PC small enough to fit in the palm of your hand. The robust anodized aluminum chassis measures just over 2 inches tall having the overall footprint about the size as a hard cover novel (10" x 5.82" x 2.79") and weighing in at about 6 lbs.

Stealth's LPC-401XG3 [LittlePC](#) contains 3X-high-speed Gigabit front loaded LAN ports ideal for a myriad of applications such as security, multi-network communications, firewalls, and network diagnostics to name a few. In the past substantial hardware deployment was required in order to achieve the same high-speed multi-port connectivity performance. A multitude of I/O connectivity is integrated into the LittlePC such as; Serial, Parallel, 3X-USB, FireWire, Video, LAN, PS/2 Mouse & Keyboard ports. The [LPC-401XG3](#) is available with a standard 80 GB IDE Hard Drive and is expandable up to 300 GB's of storage space for archived data. For applications that require extra high shock/vibration an optional Solid State Hard Drive or Flash Drives are available. A slim CD-ROM is standard with optional DVD, CD/RW and DVDRW optical drives available. Systems are compatible with Windows XP/2000, and can be pre-configured with LINUX if desired. Stealth's built to order manufacturing offers a wide range of configurations built to the customer's exact specifications.

According to Stealth's President & CEO, Ed Boutilier, " We are delivering the most powerful, feature rich, small footprint PCs available in the marketplace today", Boutilier says "small form factor computers are showing rapid growth in the marketplace as their little size and performance capability make them ideal to use in applications that were unthinkable in the past". Stealth has been shipping numerous versions of their LittlePC products for over 2 years.

The LittlePC products serve a demanding market where powerful solutions are being deployed in space-challenged applications around the world. Thanks to the rugged design, compact dimensions, and high functionality, the LittlePC is ideal for diverse and demanding applications within the Industrial, Commercial, Scientific Research, Military, Public Safety, Utility, Transportation, mining and Telecommunications markets. Stealth Little PCs are available from stock for immediate shipping as part of Stealth's [QuickShip](#) program. Pricing for LittlePC starts at \$795.00 USD

Founded in 1990 Stealth Computer Corporation is quietly evolving as a leading provider of specialized Computers and Peripherals. The company is ISO 9001 registered with its headquarters near Toronto, Canada. Stealth continually develops innovative products designed to meet the exact needs of their clients. For 15 years Stealth, products have been used in industrial, commercial, scientific, Government and military applications. Stealth Computer Corporations [impressive customer base](#) includes Fortune 500 companies, Military installations and Governments worldwide.
